Safety shoes for cold storage – maximum protection in extreme cold

These specially developed safety shoes offer reliable protection against the cold and high levels of comfort, even in persistently low temperatures. Ideal for use in cold and deep-freeze storage down to -27°C.

Art. 90991

S2 CI SR HRO FO

Features & Benefits:

- **Grained full-grain cowhide:** Robust, high-quality outer material – durable, easy-care, and resistant to cold and mechanical stress.
- **Genuine lambskin lining up to the toe:** Natural thermal insulation with excellent cold comfort, keeps feet pleasantly warm even during extended stays in the freezer.
- **Aluminized, molded insole:** Reflects cold, insulates against ground temperature, and supports the foot's shape for optimal comfort.
- **Leather insole:** Breathable and robust, contributes to the natural regulation of foot climate.
- **Lacing:** The classic lacing ensures individual adjustment to the foot and offers stable support – even during longer use or high.

Safety:

- **Steel toe cap:** Provides reliable toe protection against heavy loads and mechanical stress.
- **Cold-flexible nitrile heel sole "Zermatt":** Specially developed for low temperatures – non-slip, insulating, and permanently flexible even in extreme sub-zero temperatures.

A special shoe for extreme conditions – made for safe, comfortable work in the cold storage.
